

Facility Management - your shortcut to CPH

Logistics and goods reception

CPH and partners offer safe and professional reception, handling and delivery of goods in the airport. We take care of your delivery from its arrival in the East Goods Yard (VGØ), through correct handling in accordance with rules and regulation and temporary storing to punctual delivery to your facility. We also take care of returned goods, waste and garbage disposal. For a full list of our services see below.

Service	Included of
Basis: Reception of goods	Goods are received on the ramp. Delivery note is checked. Supplier status is checked. Control of food products. Goods are prepared for scan.
Basis: Scanning of goods	Goods for "approved suppliers" are handled via elevator or sluices. Other goods are passed through the scanner.
Basis: Temporary storage	Excess packaging material is removed. Goods are registered as arrived. Message is sent to goods owner or shop.
Basis: Wastedisposal	Empty packaging material and waste are removed from temporary storage and basement area and deposited (sorted) in the VGØ.
